

# How is Malta Permanent Residence and Malta's Global Residence Programme Route Different?

In Malta the two most popular residency routes are the Malta Permanent Residence Programme (MPRP) and the Malta Global Residence Programme (GRP).

By **Jonathan Vassallo**, 2nd March 2022

There are several residence options available in Malta aimed at non-EU/EEA nationals to obtain residence status in Malta. The various routes range from those intended to obtain a permanent residence status to programmes giving a special tax and temporary residence status.

In Malta the two most popular residency routes are the Malta Permanent Residence Programme (MPRP) and the Malta Global Residence Programme (GRP).

## **Malta Permanent Residence Programme (MPRP)**

The MPRP is open to all third-country, non-EEA and non-Swiss nationals, with a stable income from outside Malta sufficient to maintain themselves and their dependants with adequate financial resources.

Once applicants have successfully completed the application process with Malta Residence Agency, they receive an e-Residence card that entitles them to live in Malta and travel visa-free throughout the Schengen Member States. More information about the MPRP programme can be found here: [Malta Permanent Residence Programme](#).

## **Malta Global Residence Programme (GRP)**

GRP is available to non-EU passport holders. The Global Residence Programme entitles non-EU nationals to obtain a Maltese residence permit, renewable annually, through a minimum investment in property in Malta and by paying a minimum annual tax.

Individuals who are EU/EEA/Swiss nationals please see: [Malta Global Residence Programme](#) which operate on the same basis as the GRP.

### **The Main Difference**

The main difference between the Global Residence Programme (GRP) and Malta Permanent Residence Programme (MPRP), is that the GRP does not offer permanent residence rights. A special tax status leads to an annual residency permit, whilst the MPRP offers permanent residence in Malta.

### **Residence Status Explained**

Residence status obtained under the MPRP is valid for life (provided that the requirements of the programme are still being met), whilst the residence status obtained under the GRP is renewed annually subject to paying an annual tax.

#### **Annual Tax:**

- Under the GRP, a beneficiary must pay a minimum annual tax of €15,000.
  
- Under the MPRP, there is a minimum annual tax of €5,000 if the person is ordinarily resident in Malta, or zero tax if the person is not ordinarily resident in Malta. In both cases the tax rate on income remitted to Malta is a flat 35%.

### **Comparison of Programs: GRP and MRVP**

| Conditions | Global Residence Programme | Malta Permanent Residence Programme |
|------------|----------------------------|-------------------------------------|
|------------|----------------------------|-------------------------------------|

|                                                               |                                                                                                                                                                            |                                                                                                                |
|---------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------|
|                                                               | Not specifically defined, but an individual should have sufficient resources to sustain him or herself and dependants, without any recourse to social assistance in Malta. | No less than €500,000 in all assets (€150,000 of which should be in financial assets – for the first 5 years). |
| <i>Financial requirements</i>                                 |                                                                                                                                                                            |                                                                                                                |
